- Date: 15–16 February 2025

Evaluation Report – 4th Transnational Project Meeting (Romania):

The fourth Transnational Project Meeting took place in Bucharest, hosted by the National University of Physical Education and Sports and Steaua Bucharest Sports Club. The event successfully combined academic, practical, and promotional elements, contributing to the consolidation of the Water Skyball training methodology at a professional level.

Key Achievements:

- Theoretical and practical sessions delivered by Romanian experts in sport education.
- Participation of university students, coaches, and sport professionals.
- High-level institutional collaboration with national sport authorities and academic representatives.
- The Amateur Water Skyball Championship demonstrated the sport's appeal and inclusivity.

Main Outcomes:

- Increased understanding of Water Skyball as an educational and recreational sport.
- Strengthened cooperation between project partners and Romanian sport institutions.
- Enhanced visibility of the project within the academic sport community.

Conclusion:

The Bucharest meeting successfully met all objectives, emphasizing both the professional and educational aspects of Water Skyball. It also marked a key step in integrating the sport into university-level sport education and public awareness in Romania.

Feedback Questionnaire – Summary of Results

1. Overall organization of the event:

Participants praised the excellent coordination and professional hosting by the Romanian partners. The smooth logistics and well-structured program contributed to an efficient and enjoyable experience.

2. Quality of training sessions:

The theoretical presentations and practical pool sessions were well-balanced. Participants valued the clarity of the teaching methods and the opportunity to gain direct experience through play.

3. Relevance of content:

The materials presented were highly relevant to coaches, students, and sport educators, offering new ideas for non-contact, inclusive sport activities.

4. Professional development:

Attendees emphasized that the event helped them understand how Water Skyball can be integrated into both competitive and educational contexts.

5. Logistics and facilities:

Both venues – the National University and Steaua Bucharest Swimming Pool – were considered excellent, providing professional conditions for the workshops and matches.

6. Overall satisfaction:

Participants described the meeting as motivating, well-organized, and impactful. They appreciated the opportunity to network with international trainers and to experience the sport in a professional environment.

7. Comments (summary):

- “A high-quality professional event.”
- “Very inspiring to learn a new, modern sport method.”
- “Perfect organization and friendly atmosphere.”

Conclusion:

The feedback confirmed the success of the Romanian meeting, highlighting the professionalism of the host institutions and the educational value of Water Skyball. The event provided an excellent platform for knowledge exchange and further international cooperation.
